### **REVISED JOINT CLAIM CONSTRUCTION STATEMENT AND CHART**

In accordance with the Court’s March 7, 2018 conference instructions (ECF No. \_\_), Plaintiffs Mynette Technologies, Inc. and Steven M. Colby, Defendant the United States, and Intervenor-Defendant Unisys Corporation (“Unisys”) (collectively “Defendants”) (collectively, “the Parties”) provide this Revised Joint Claim Construction Chart.

The patents at issue are U.S. Patent Nos. 7,719,425 (“the ’425 patent”); 7,924,156 (“the ’156 patent”); 9,524,458 (“the ’458 patent”); and 9,569,777 (“the ’777 patent”) (collectively “the Patents-in-Suit”). The Parties’ Revised Joint Claim Construction Chart includes the Parties’ respective interpretations of claim terms and phrases, and identification of references from the specification, prosecution history, and extrinsic evidence in support thereof.

Attached as Exhibit A are those terms and their constructions for which the Parties could reach agreement. Attached as Exhibit B are those terms for which there remains a dispute that would benefit from the Court's consideration. These positions reflect the outcome of the parties'

continued conferences and negotiations since the February 8, 2018 claim construction hearing and March 7, 2018 telephonic status conference.
